EXCEED YOUR HORSE EXPECTATIONS

PROTEO switch

WHEN PASSION MEETS INNOVATION

With the new PROTEO Switch®, THEAULT shows more of its pioneering status and avant-garde manufacturing.

The proof is in its look, its patented system and many innovations.

Since its creation, PROTEO is a product that combines performance, elegance, safety and technology.

The DNA of our PROTEO is still present.... and for this new version we focused on 3 major areas:

- a new **dynamic design** combining aesthetics and quickness
- a redesigned **cabin** for even more user comfort
- a **horse part** offering a **modularity** unseen before in a patented innovation

We invite you to discover the PROTEO Switch®, the horsebox that goes beyond your horses' expectations... and yours!

PROTEO switch

PATENTED SWITCH SYSTEM FOR THE COMFORT OF YOUR HORSES

We are very proud to present this unique modular system, which is the outcome of exciting and constructive exchanges with our customers. Each horse, by its morphology or personality, has its preferences during transport. In a classic model, some horses do not travel in optimal conditions.

With the PROTEO Switch®, you no longer need to choose between a stud and standard version; you can instantaneously adapt the most suitable configuration for your horse's individual comfort.

EIGHT POSSIBLE CONFIGURATIONS

With its unique modular system, the PROTEO Switch® adapts to any horses' morphology and temperament.

SOME CONFIGURATION POSSIBILITIES

- 1 Double door in Sport (or shortened) position with open anti-weave grills.
- 2 Double door in Stud (or extended) position with closed anti-weave grills.
- 3 4 Door in Stud (or extended) position with closed anti-weave grills / Door in Sport (or shortened) position with open anti-weave grills.

SAFETY & COMFORT

The flexible space of our cabins meets all needs. You will enjoy spending time with family and friends in the lounge configuration, with the atmosphere you have selected. This quiet and optimized space will also allow you to rest and prepare before enjoying the time ahead with your horse.

We guarantee a high level of safety; the bulkhead between the cabin and horse part is subjected to numerous crash tests (UTAC approved) in order to withstand major shocks.

FULLY PERSONALISED INTERIOR

Adjustable rear seat

- 1 Rear bench with 3 seats
- 2 Bunk beds
- 3 Storage compartments
- 4 Control screen of all the cameras
- 5 Three-point seat belts
